HON-BIOEM-3000W/ HON-BIOMI-3000W

IP65 Rated Outdoor Fingerprint Access Control Terminal

HON-BIOEM-3000W/ HON-BIOMI-3000W is a fingerprint access control Biometric Reader with an integrated reader. It is IP65 rated which enables it to be resistant from water, dust and other outside damages. It can be installed easily on your network having Ethernet communication ports. Weigand-OUT port allows connection of reader to Honeywell access control panels.
Users can be registered on the device by connecting with EASYACCESS3.5 software by TCP/IP.

Rugged Structure for Outdoor Installation and Extra Durability
• IP65 rated waterproof and dustproof structure

Slim and Elegant Design
• One of the world's smallest fingerprint terminals
• Sleek and slim design for narrow spaces

Easy Installation and Connectivity
• Wiegand output
• Network interface by TCP/IP

Fast and Accurate Fingerprint Algorithm
• 1 touch a-second user recognition

SPECIFICATIONS:

FINGERPRINT SENSOR	Optical Sensor
SUPPORTED SOFTWARE	EASYACCESS3.5
COMMUNICATION	TCP/IP
FINGERPRINT CAPACITY	3,000 Fingerprints
CARD CAPACITY	30,000 Cards
LOG CAPACITY	100,000 Transactions
AUTHENTICATION	Finger/Card
WIEGAND SIGNAL	Wiegand output
INGRESS PROTECTION RATE	IP65
OPERATING VOLTAGE	12VDC 3A
OPERATING TEMPERATURE	0~ 45 ℃ (32℉ ~ 113℉)
DIMENSION	62.5mm×185mm×41.5mm (W×H×D)

CONFIGURATION

DIMENSIONS (MM)

ORDERING INFORMATION

Part Code	Description
HON-BIOEM-3000W	Honeywell Bio Access with EM
HON-BIOMI-3000W	Honeywell Bio Access with MI
